10 SOIL DETOXIFICATION

(–1 🌿)

Lasting effect: You may always pay 1 plant less while placing a greenery.

PT000110

PFT6

Requirements: Greens are ruling or you have minimum 2 delegates there.
Effect: Increase your plant production 1 step.

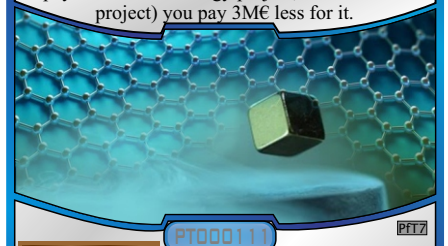
"Martian soil is toxic, due to relatively high concentrations of perchlorate compounds containing chlorine. But we can overcome it."

Pathfinders –fan made

10 HIGH TEMP. SUPERCONDUCTORS

⚡ : –3

Lasting effect: when you play an energy tag (or pay for standard energy project, or Kelvinists project) you pay 3M€ less for it.



PT000111

PFT7

⚡ ⚡

Requirements: Kelvinists are ruling or you have min 2 delegates there. **Effect:** Increase your energy production 2 steps.

"A superconductor has a critical temperature below which the resistance drops abruptly to zero. This allows energy transfer without ANY loss. Flux pinning in superconductors will revolutionise every aspect of our technologies."
