

10 **5**   

OCEAN SANCTUARY

 : 

Effect: When you play a card with an animal tag (including this) place 1 animal on this card.

ARES-01 

Requirements: minimum 5 oceans.
Effect: Place an *Ocean Sanctuary* special tile on top of an existing ocean tile on Mars.

A specialized ecosystem for many aquatic and coastal animals.

 **Ares - fan made**

14 **4**   

OCEAN FARM

ARES-02 

Requirements: minimum 4 oceans.
Effect: Increase your heat and plant production 1 step. Place an *Ocean Farm* special tile on top of an existing ocean tile on Mars.

"By channeling geothermal heat we can make localized aquaculture feasible."

 **Ares - fan made**

20 **3**   

GREAT DOME

Action: play a microbe, plant or an animal tag card on this card, ignore its global requirements (max. 1).
OR Action: If the card on this card meets its global requirements, you can release it from this card.

FAN MADE

Requirements: minimum 3 science tags.
Effect: Place a *Great Dome* special tile on Mars.

 

"We spared no expense"

 **Ares - fan made**

THOSE ARE BONUS CARDS
THAT I PLAY WITH
THEY BRING A LOT OF SPECIAL TILES
INSPIRED BY
OTHERS EXPANSIONS ON BGG

GLOBAL RULE

 A TILE WITH A YELLOW BORDER AND A RESOURCE ON IT HAS AN ADJACENCY BONUS FOR ANY PLAYER
WHEN ANY PLAYER PLACES A TILE NEXT TO A TILE WITH YELLOW BORDER (LIKE ABOVE) THEY RECEIVE THAT RESOURCE IN ADDITION TO NORMAL BOARD PLACEMENT BONUSES

14  

METALIC ASTEROID

ARES-03 

Effect: Raise temperature 1 step (2°). Receive 2 steel. Place a *Metalic Asteroid* special tile on Mars.
Remove up to 2 plants from any player.

Contains highly valuable alloys, but prone to fragmentation when it hits the atmosphere.

 **Ares - fan made**

14  

SOLAR FARM

ARES-04 

Effect: Place a *Solar Farm* special tile on Mars. Increase your energy production 1 step for each plant resource on the area where you place the tile.
Most effective at the equator.

 

 **Ares - fan made**

12    

BIO-FERTILIZER FACILITY

ARES-04 

Requirements: minimum 1 science tag. **Effect:** Increase your plant production 1 step. Add up to 2 microbes on any card. Place a *Bio-Fertilizer* special tile on Mars.

Large scale production of soil bacteria and symbiotic algae. A living growth medium.

 **Ares - fan made**
